Jhana,  
Did you get the MSDS sheet from DuPont? I was told you requested it when you arrived on scene.

Jhana,  
I spoke to Monica right after we got off the phone with you and she imparted that wisdom on me. All chemical quantity units in the RMP database are listed in pounds.

As soon as I got that information I shared it with you.

Thanks and Good Luck!

OK, you told me they had no units listed and now you say they have pounds...if we are going to request info we need to have our story straight first. I don't like to request info they have already provided...please make sure you verify what we need before I request
